

# JOSHUA HOVIS

## Front End Developer

📞 980-900-7975   @ joshuahoviswork@gmail.com   🌐 <https://www.joshuahovis.com/>   📍 Chicago, IL

### SUMMARY

With a strong background in JavaScript web development, I am a highly skilled front-end developer and Tech Bootcamp graduate with a passion for creating visually appealing and intuitive web applications. With over 2 years of professional experience utilizing Angular and TypeScript, I have continually expanded my knowledge and expertise in React and JavaScript through personal projects and ongoing learning. While front-end development is my primary area of focus, my versatile skill set encompasses the full-stack. I am eagerly seeking opportunities to work alongside senior developers on cutting-edge projects that enable me to further refine my skills and deliver exceptional results for clients.

### PROFESSIONAL EXPERIENCE

#### Junior Software Engineer

[Xenial](#) 📅 2022 - 2023   📍 Charlotte, NC

- Designed and deployed dynamic and visually appealing user interfaces for intricate web-based systems, catering to diverse clientele needs.
- Skillfully resolved complex coding challenges, continuously improving system functionality and user experience.
- Conducted comprehensive code reviews, implemented thorough unit testing, and ensured seamless integration through continuous integration, consistently adhering to Test-Driven Development (TDD) best practices.
- Maintained strict confidentiality of confidential employee, company, and customer information, preserving the trust and security of sensitive data.
- Demonstrated proficiency in seamlessly integrating and optimizing various point-of-sale (POS) devices, printers, cash drawers, and other peripherals within our POS application.

#### Software Engineering Student

[General Assembly](#) 📅 2021 - 2022   📍 Remote

- Successfully completed a rigorous 12-week full-time immersive program, which entailed 540 hours of expert-led instruction and hands-on project-based learning. Gained extensive proficiency in full-stack web development, specializing in the use of JavaScript, HTML and CSS, with a focused emphasis on leveraging React, Express, and Node to build scalable and dynamic web applications.

#### Self Employed

[Auto Visions Window Tinting](#) 📅 2019 - 2021   📍 Charlotte, NC

- Employed industry-leading techniques and premium materials to deliver exceptional results in the installation of window tint on automobiles for vendors, customers, and dealerships alike.
- Remained in constant communication with necessary personnel to ensure projects stay on schedule and are completed per the latest industry standards.
- Leveraged specialized computer software to accurately input, update, and validate job information throughout every stage of each tint job, ensuring seamless and efficient workflow from start to finish.

#### Airman

[U.S. Navy](#) 📅 2018 - 2019   📍 Lemoore, California

- Maintained and repaired aircraft and equipment, ensuring optimal readiness for safe and successful flight operations.
- Adeptly carried out essential ground and deck duties integral to successful aircraft take-off and landing operations, both on land bases and aircraft carriers.

### SKILLS

#### Tools

JavaScript   TypeScript   React
